

What is happening right now?

- We are in the scoping (issue identification) process for an environmental study for improvements to SR-68 from Bangerter Highway through Saratoga Springs.
- UDOT's plan for improvements to this section of SR-68 is intended to address future capacity needs, ensure a safe transportation facility and have the roadway meet current design standards.
- The study will document the need for the project, project alternatives and design options, and potential impacts to the natural and built environment.

Project schedule

Summer/Fall 2006

- Conduct field studies
- Perform traffic analysis
- Develop purpose and need
- Continue to collect public input throughout study
- Develop and analyze alternatives
- Receive public input on alternatives at second open house meeting

Winter/Spring 2007

- Prepare an Environmental Assessment (environmental study) document
- Hold a public hearing
- Complete the study and decision document by July 2007
